
Call for Papers
Discrete Applied Mathematics

**Special Issue: Tenth Workshop on Graph Classes, Optimization, and
Width Parameters, Koper, Slovenia, September 2022 (GROW 2022)**

We invite submissions to this special issue of *Discrete Applied Mathematics* dedicated to the topics of the **Tenth Workshop on Graph Classes, Optimization, and Width Parameters (GROW 2022)** held on September 19–22, 2022, in Koper, Slovenia.

Submission is also open to researchers who did not attend GROW 2022 and the papers may, but need not be, related to a presentation at the workshop.

Contributions arising from papers already published in conference proceedings should be substantially extended and should cite the conference presentation where appropriate. All articles will be thoroughly refereed according to the high standards of *Discrete Applied Mathematics*.

Guide for authors can be found at:

<https://www.elsevier.com/journals/discrete-applied-mathematics/0166-218x/guide-for-authors>

Full papers must be submitted through the Elsevier Editorial Manager (EM) system (<https://www.editorialmanager.com/dam/default1.aspx>). When submitting your paper, be sure to specify that the paper is a contribution for the special issue of **GROW 2022**, so that your paper is assigned to the Guest Editors. Please see the Author Instructions on the site if you have not yet submitted a paper through EM. Be sure to note that your work is intended for the special issue and to select the article type **GROW 2022**.

DEADLINE: The deadline for submission is **April 1, 2023**.

Accepted papers will be published online individually, before print publication.

We look forward to receiving your contribution. If you are considering submitting a paper to the special issue, please let us know via a brief email to sergio.cabello@fmf.uni-lj.si and martin.milanic@upr.si.

Guest Editors: Sergio Cabello, Martin Milanič
