# Combinatorics around the q-Onsager algebra

A conference celebrating the work of Paul Terwilliger

Featuring:

- Distance-regular graphs and association schemes

- Leonard pairs, tridiagonal pairs, billiard arrays

- The q-Onsager algebra, the q-shuffle algebra, and mathematical physics

- Equitable representations of $U_q(sl_2)$, $U_q(s\hat{l}_2)$, the universal Askey-Wilson algebra, and more

June 20 - 24, 2022
Kranjska Gora, Slovenia
